

The implication of using the fabric masks or masks with vents : Efficacy Concerns

Norman Khoza

SAIOH President 2020/AUDA-NEPAD: OHS Specialist

18 September 2020

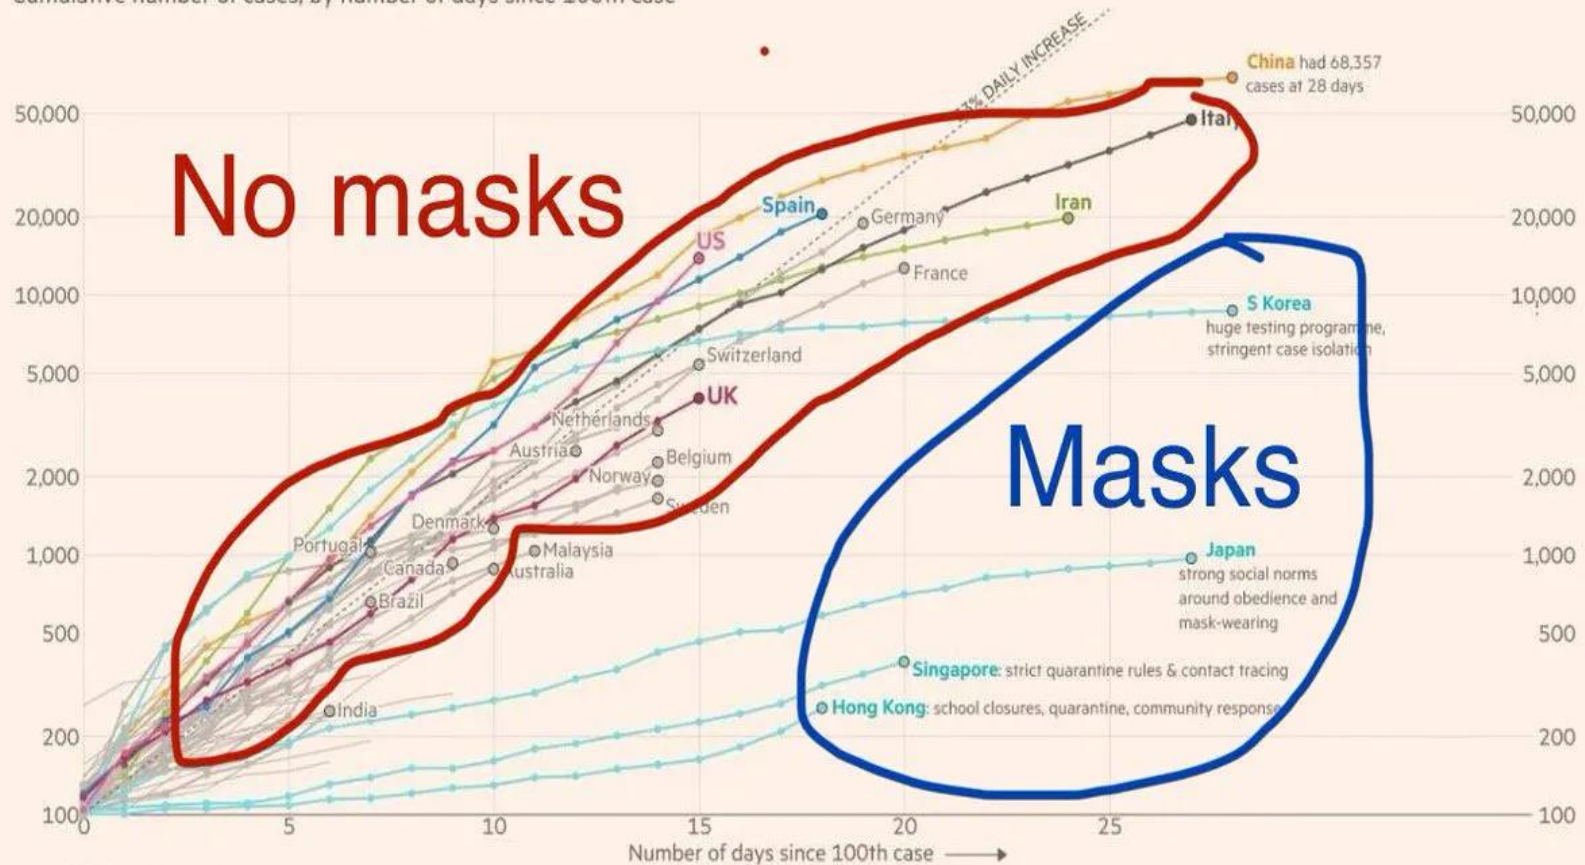

Background

- Last resort but an important worker exposure control
- Difference between surgical masks vs fabric masks & those with vents
- Difference between workplace vs public space
- How do we draw the line?
- We need to acknowledge the fraction of contribution they bring, even though it could in the form of a “placebo effect”
- This information sharing seek to discuss

What we know

Country by country: how coronavirus case trajectories compare

Cumulative number of cases, by number of days since 100th case

Questions to be discussed

- The purpose of fabric masks
- Selection
- Maintenance
- Efficiencies
- Limitations

The aim

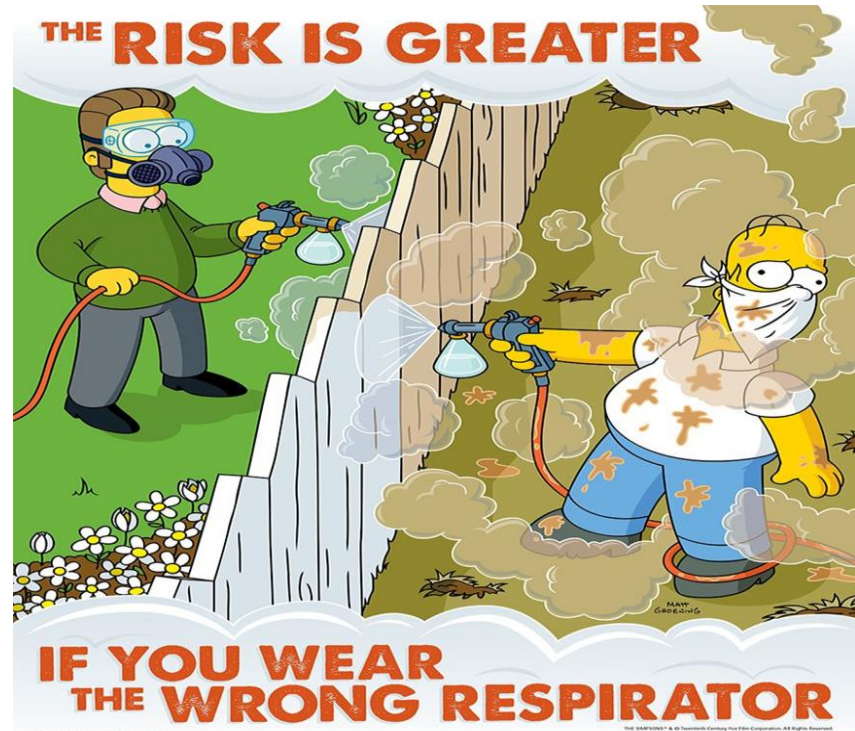

Collaboration is key

Not in my job description".

" I draw lines, I don't move trees"

Medium.com

Sure glad that hole isn't at our end.

Fashion !?!?!?!?!?

PPE has never been a fashion, but we can make it fashionable and provide adequate protection

Therefore, its high-time we work together to innovate

A big thank you to:
