

OHSS

WHAT DATA MUST BE COLLECTED AND SUBMITTED?

Vulnerable Worker Data - Identify employees with comorbidities or >60 years old, who are likely to have severe COVID-19 outcomes. Once-off submission with updates as necessary.

Daily Symptom Screening Data - All employers have to screen all workers on a daily basis. The daily collected data must be submitted weekly for SYMPTOMATIC workers.

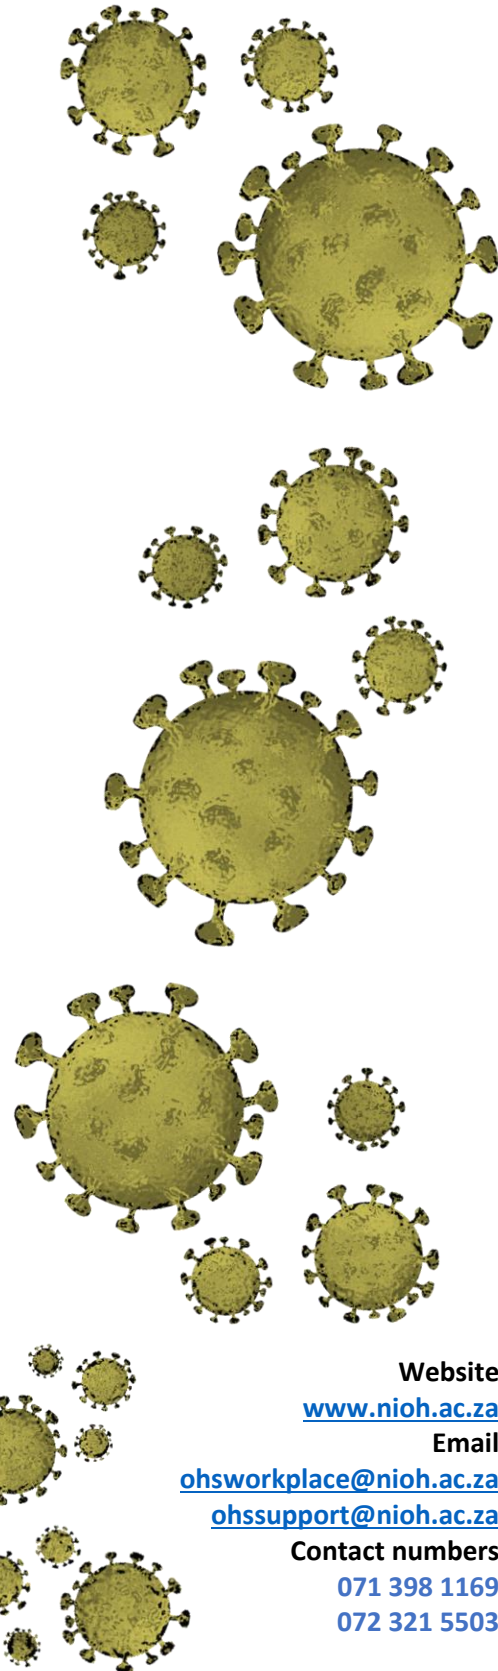

COVID-19 Testing Data - If an employee tests POSITIVE, the information on the employee must be submitted by the employer on a weekly basis.

High Exposure Risk Workplace Contact - If an employee tests positive, all those in contact with the ployee must be assessed as low or high risk (<1.5m & >15mins with no PPE) and placed in quarantine if high risk. The number of high risk contacts must be submitted when submitting the weekly positive case information.

Post Infection Outcome And Return To Work Data - All employees who were submitted as POSITIVE must have their outcomes updated. This is submitted once the employee returns to work.
